

Discover 6 Ways to Treat Soft Tissue Injuries More Efficiently, Effectively

Graston Technique® Training at U.S. Olympic Center

M1-Training March 24-25

This is a unique opportunity to learn Graston Technique® during the 12-hour M1-Basic Training at the U.S. Olympic Training Center at Colorado Springs, Colorado.

Discover for yourself how this advanced form of instrument-assisted soft tissue mobilization is changing the way clinicians treat soft tissue injuries, making treatment more efficient, more effective.

The Graston Technique® Advantage:

The first time you use the specially designed stainless steel instruments, you will immediately *feel* the difference. The GT instruments provide you with a mechanical advantage in detecting and treating soft tissue injuries. Through the GT instruments, you will quickly identify areas of restriction, isolate adhesions and treat them precisely, in a manner not possible with other modalities or soft tissue approaches.

GT will:

- Improve Your Patient Outcomes
- Provide a Unique Patient Service
- Build Interprofessional Referrals
- Prevent the Stress on Your Hands and Arms
- Increase Clinic Revenue

Training Fees: \$495 per clinician. (Discount training offers and training certificates not applicable. No continuing ed credit for DC.)

Lodging & Meals On-Site at USOTC: \$140 per night. Single rooms may not be available. Airport transportation included. [Email](#) for details.
